

CINEMA FACTORY
ACADEMY

— A New Era in Film Education —

1-Year Diploma in

ADVANCED VIRTUAL PRODUCTION

Go beyond Unreal Engine and learn Advanced Virtual Production as a filmmaker, VFX artist and real-time creator.

Affiliated to

ADVANCED VIRTUAL PRODUCTION

BEYOND UNREAL ENGINE

Go beyond Unreal Engine and learn Advanced Virtual Production as a filmmaker, VFX artist and real-time creator.

PIPELINE

Step 01 : 3D Asset

Step 02 : Unreal Environment

Step 03 : LED Volume

Step 04 : Virtual Camera

Step 05 : Final Shot

*From Virtual Scouting To LED Volume.
From Unreal To Real Production.*

MENTORS

LEARN FROM INDUSTRY MENTORS

Gain Guidance From Professionals Bringing Filmmaking, VFX And Real-Time Production Expertise Into The Classroom.

MUNIRAJ

Creative Technologist

A Creative Technologist Dedicated To Bridging The Gap Between Digital Art And Real-Time Rendering To Help You Build The Future Of Filmmaking.

MENTOR

SHIV SHANKAR

Senior VFX & Unreal Artist

Bringing Blockbuster Visual Effects Onto The Real-Time Stage. Join Our AVP Course To Master The Workflows Powering Today's Most Advanced LED Volumes.

— • COMPLETE VP PIPELINE • —

MASTER THE COMPLETE VIRTUAL PRODUCTION PIPELINE

Build The Creative And Technical Skills Required To Take A Virtual
Production Project From Digital Assets To The Final Frame.

3D MODELING & ASSET CREATION

Maya • Blender • Modular
Environments • LODs • UVs

ADVANCED TEXTURING & MATERIALS

Substance Painter • PBR •
Procedural Materials

CINEMATIC VIRTUAL PRODUCTION

Camera Physics • Virtual Cameras
• Lens & Cinematography

CAMERA TRACKING & MATCH MOVING

3DEqualizer • PFTrack • Unreal
Camera Integration

ADVANCED UNREAL ENGINE

Blueprints • Sequencer • Niagara •
Scene Optimization

AI + PROCEDURAL WORLD CREATION

AI Environments • World Creator •
Terrain • Set Extensions

PROFESSIONAL TRACKING SYSTEMS

Portal Tracker • HTC Vive Mars •
NCam • Stype • Mo-Sys • CinCraft

TECHVIZ + LiDAR + VIRTUAL SCOUTING

Digital Twins • Camera Planning •
Virtual Location Scouting

LIVE COMPOSITING & ON-SET VP

LED Wall • Green Screen •
Ultimatte • LUT & Color Pipeline

• 3D MODELING & TEXTURING •

BUILD THE WORLD BEFORE YOU SHOOT IT

SECTION 01

3D MODELING & ASSET CREATION

Build Production-Ready Digital Assets And Environments Using Maya And Blender.
Learn To Create Modular Environments Designed For Efficient Real-Time Production.

Understand LODs And UVs For Optimized Assets And Clean Texture Workflows.

Develop Detailed 3D Assets That Can Seamlessly Integrate Into Unreal Engine.

From Basic Geometry To Production-Ready Environments, Learn To Build Worlds Made
For Virtual Production.

Maya

Blender

Modular Environments

LODs

UVs

SECTION 02

ADVANCED TEXTURING & MATERIALS

Create Realistic Digital Surfaces Using Substance Painter And Industry-Standard PBR
Workflows. Learn To Build Detailed Materials That Respond Naturally To Light In Real-Time
Environments. Explore Procedural Materials For Flexible And Scalable Asset Creation.
Master Surface Detail, Texture Consistency, And Material Optimisation For Virtual Production.

Substance Painter

PBR

Procedural Materials

CINEMATIC VIRTUAL PRODUCTION

DIRECT THE VIRTUAL CAMERA

Bring Cinematography Into The Real-Time World.

CAMERA PHYSICS

Understand Real-World Camera Movement, Physics And Behaviour In Virtual Environments.

VIRTUAL CAMERAS

Work With Virtual Cameras Inside Unreal Engine For Real-Time Framing, Movement And Control.

LENS & CINEMATOGRAPHY

Explore Real Lens Characteristics, Depth, Perspective And Cinematographic Decisions In A Virtual Workflow.

Understand How Camera Behaviour, Lens Characteristics And Cinematographic Decisions Translate Into Virtual Production Environments.

MAKE THE VIRTUAL CAMERA MOVE LIKE A REAL CAMERA

Learn The Technology That Connects Physical Camera Movement With Digital Environments.

Physical Camera

Tracking Markers

3D Camera Solve

Unreal Scene

Understand How Camera Movement Is Tracked, Solved And Integrated Into Unreal Environments For Accurate Virtual Production.

CONTROL THE REAL-TIME WORLD

Go Deeper Into Unreal Engine And Learn The Systems That Power Advanced Virtual Production.

BLUEPRINTS

Build Interactive Systems And Gameplay Logic Visually, Without Compromising Power Or Performance.

SEQUENCER

Create Cinematic Sequences, Control Camera Moves, And Orchestrate Complex Timelines With Ease.

NIAGARA

Develop Real-Time Visual Effects With Powerful, Scalable Particle Systems.

SCENE OPTIMIZATION

Optimize Environments, Manage Performance, And Ensure Smooth Real-Time Playback On Production Hardware.

BUILD WORLDS WITH AI & PROCEDURAL TOOLS

Explore Emerging Workflows For Creating Expansive Cinematic
Environments Faster And More Creatively.

AI ENVIRONMENTS

Generate And Develop
Cinematic Environment
Concepts.

WORLD CREATOR

Create Large-Scale
Terrains And
Landscapes.

TERRAIN

Build Detailed Digital
Landscapes For
Virtual Production.

SET EXTENSIONS

Expand Physical
Sets Into Digital
Worlds.

AI + PROCEDURAL WORLD CREATION

CONCEPT

TERRAIN

DIGITAL ENVIRONMENT

PHYSICAL SET + DIGITAL EXTENSION

— • PROFESSIONAL VP TECHNOLOGY • —

WORK WITH PROFESSIONAL TRACKING SYSTEMS

Understand The Technologies That Connect Physical Cameras, Performers And Virtual Environments.

— • TRACKING SYSTEMS • —

HTC VIVE MARS

Affordable, Wireless 6DoF Tracking For Performers And Props.

— • TECHVIZ + LIDAR + VIRTUAL SCOUTING • —

DIGITAL TWINS

Capture Real-World Spaces With LIDAR And Create Accurate Digital Twins.

CAMERA PLANNING

Real-Time Tracking And Data Fusion For Plan Lenses, Angles And Movements Precisely Inside The Virtual Environment.

VIRTUAL LOCATION SCOUTING

Scout And Visualize Locations Anywhere In The World Before You Build Or Travel.

OVERSEAS VP STAGE VISIT

EXPERIENCE VIRTUAL PRODUCTION BEYOND THE CLASSROOM

Gain Exposure To Professional Virtual Production Environments And Experience How Advanced VP Technology Is Applied Beyond The Classroom.

WHY CHOOSE CFA?

FILM PRODUCTION + VFX + REAL-TIME TECHNOLOGY

FILMMAKING + TECHNOLOGY

Learn Virtual Production From A Filmmaker's Perspective Not Simply As Software Training.

INDUSTRY MENTORSHIP

Learn From Experienced Mentors Working Across Cinematography, VFX, Unreal Engine, XR/VR, And Real-Time 3D Workflows.

INDUSTRY EXPOSURE

Gain Practical Exposure Through The Stage Unreal Internship.

EVOLVING CURRICULUM

Curriculum Continuously Evolving With Emerging VP Technology.

AWARD-WINNING PROJECTS

International Award-Winning Student Virtual Production Projects

ALUMNI SPOTLIGHT

OUR ALUMNI

MAKING MOVES

From Classroom To The Real World, Our Alumni Are Creating, Contributing
And Excelling

ALUMNUS
SREERITHANYA

Unreal Generalist
Film Engineers – Mumbai

ALUMNUS
**JAWAKAR
SHAKTHI**

Unreal Engine
Environment Artist
at MAGIC IN WHITE

ALUMNUS
JEEVA

Unreal Engine Animator
at MAGIC IN WHITE

ALUMNUS
SHWEDHA

Unreal Engine Generalist
& Motion Graphics Artist
at MAGIC IN WHITE

ALUMNUS
SARUMATHI

Unreal Engine TD
at DNEG

ALUMNUS
BALAJI

Unreal Engine Previz Artist
at MAGIC IN WHITE

ALUMNUS
JOYAL

On-Set VFX Supervisor
Paul Bros VFX
